### Itinerary Plan for Family

The itinerary is appointed as ideal for kids who dislike long drives and sudden changes unless equally adventurous. The journey has stops for relaxation and adventure activities.

### Suitable Family Accommodations

We are suggesting those most suitable for room sharing options to reduce cost of holiday for maximum gain. Adults - 4 are to be accommodated in 2 doubles. Kid (13) - is regarded as an adult in terms of price costing at hotels. 7 & 4 year old can share a triple, unless otherwise advised by parents

Travel Mode: We recommend 4x4 Safari Jeep/Cruiser. Van options available for more savings,
